

Interview: Math - Sample #1

NOTE: This form is provided as a guide. It is without legal review. NAMTA suggests that any business utilizing any or all of this form do so after confirming that the information and/or questions on this form are appropriate according to the government bodies that have jurisdiction over your business, along with being aware of all state and federal laws regulating at what point in the interview/hiring process a form such as this can be used, and what questions are allowed.

Applicant Name/Interview Date: _____

1. A \$200 item is on sale for 20% discount. What is the sale price? _____
2. How many 8 x 10" boards can you get out of a 32 x 40" Mat Board? _____
3. How many ounces in a quart? _____
4. Canvas is priced at \$3.10 /foot. A customer buys three yards.
How much will it cost? _____
5. What's the GST on \$60? _____
6. Which is a larger area 20 x 24" or 18 x 30"? _____
7. Volume Discount for paint orders \$300 is 30%.
How much will the customer save on a \$300 order? _____
8. If the cash register and/or Internet go down, you would need to create a handwritten invoice.
You have been given 6 items from the store. **Create an invoice below.** You **can** use a calculator.

INVOICE

Code	Description	Quantity	Price	Subtotal
			Subtotal	
			Save 10%	
			Subtotal	
			GST	
			ORDER TOTAL	

NOTE to Interviewer

The invoice is meant to assess applicant's math skills, proofreading, reasoning, product knowledge (i.e., Kneaded Eraser" versus 'grey soft block), and thoroughness and organization.

- Did they catch the duplicates/multiples of an item both in writing and extending?
- Were they able to figure out the tax using either their head or the calculator?
